

**SPRING 2011
NORTHERN CALIFORNIA
4 LOCATIONS
JOHN SAINT RYAN
HORSEMANSHIP**

John Saint Ryan works with horses & riders in every discipline, & at all levels, with a focus on bridging natural horsemanship techniques with the principles of classical riding. He draws on his experience working under the guidance of Tom Dorrance, from his work with Master Horseman Jose Manuel Martin de Leon of Spain, & Rodrigo de Costa Mattos of Portugal.

John will help each rider improve by directing them toward a deeper understanding of their horse, & ultimately working toward riding skills that incorporate the feel, timing & balance necessary to lead to a light and responsive horse.

He has a reputation as a truly talented, kind & gentle horseman. Whether he is working with Championship Show Equestrians or dedicated recreational riders, his focus in teaching is the same: "help the students develop a deeper level of communication with their horses & unlock the incredible potential that each horse has to offer". There is no trauma or turmoil in a John Saint Ryan lesson! Just lots of fun & amazing results in connecting & communicating with your horse, no matter what your riding discipline may be.
