

JOHN SAINT RYAN

Highland Springs Equestrian Center 8900 Wight Way, Kelseyville (707) 279-1903

Friday 17th October - Sunday 19th October 2014

John Saint Ryan works with horses & riders in every discipline, & at all levels, with a focus on bridging natural horsemanship techniques, the principles of classical riding & the latest research within Academic Equitation. He draws on his experience working under the guidance of Tom Dorrance, from his work with Master Horseman Jose Manuel Martin de Leon of Spain, & Rodrigo de Costa Mattos of Portugal.

John has a reputation as a truly talented, kind & gentle horseman. Whether he is working with Championship Show Equestrians or dedicated recreational riders, his focus in teaching is the same: "help the students develop a deeper level of communication with their horses & unlock the incredible potential that each horse has to offer".

There is no trauma or turmoil in a John Saint Ryan lesson! Just lots of fun & amazing results in connecting & communicating with your horse, no matter what your riding discipline may be.

We would like to extend an invitation to our
2nd in this series of lectures at
Highland Springs Equestrian Center
Friday 17th October 6pm - 8pm

No charge for clinic participants. Auditors: \$10.00

"We are very fortunate these days in having the research & studies available that can help us understand how our equine friends really think & operate. This information is available to all via ISES & has no restrictions with regard to discipline or breed. Incorporating this knowledge into your training can only be beneficial to your horse & that is why I am so committed to encouraging people to join ISES. There are so many useful studies on all the things that matter including behavior, tack, training methods & much more.

I hope to meet you at the lecture!" JSR

The International Society
for Equitation Science

Friday 17th October 6pm to 8pm
Equitation Science Seminar

No charge for clinic participants.
Auditors: \$10.00

Saturday 18th October Group Clinic
9am - noon. 1.30pm - 4.30pm

John will clearly explain the scale of equine learning theory to help the rider communicate in a better way using practical applications in riding. Using the 4 elements of stop, go, turn & yield, John will suggest ways to improve each horse by introducing an exercise which will help them. This is not discipline specific and simply applies to all horses because this how they learn and think. Each participant will have an opportunity in the afternoon session to work on a specific exercise or difficulty they may have with their horse. \$100.00 per rider. Auditors \$40.00 per day, \$25.00 part of.

Sunday 19th October Private Lessons
9am - noon, 1pm - 5pm

Each horse/rider combination can ask for help/direction regarding specific work or simply just be advised by John on what he thinks most appropriate for the horse. \$100.00 per individual 1 hour lesson. Auditors \$40.00 per day, \$25.00 part of. Please call
